Gloucestershire 'Local Choice' Milk

Richard Cornock & Rusty
*With his herd of pedigree Friesians
on his family farm*

Regional Sourcing

The Cornocks have farmed on their family farm in Tytherington, Gloucestershire since the 1800's. Today, Richard & his brother Tom, continue the tradition of keeping their milk production as natural and sympathetic to the ground as possible.

Maintaining their pastures with careful consideration has encouraged an excellent wildlife habitat and bio-diversity onto their home farm. Resulting in superb milk whilst enhancing the countryside surrounding them.

Celebrating Local and Regional Produce

Richard and Tom are an excellent example of how Local Sourcing is providing quality produce within our stores, whilst helping producers maintain good practices and production of some of the best produce available.

Many of the best products in the world are produced in the United Kingdom and many of the best - and most innovative - suppliers, large and small, are to be found within our counties. We are proud to stock these products and to work with these suppliers. But we know, because our customers and suppliers tell us, that we can do more - both to celebrate the local products and suppliers that we have, and to make it easier for more local products and suppliers to reach us and our stores. Our customers have pride and passion for their regions, and we have listened to their requests for more regionally sourced products - promising, as a key part of our Customer Plan, to provide customers with the best local offer possible.

For much more information and other suppliers please visit our Local Sourcing webpages at;

www.tesco.com/regionalsourcing/
